

## Saline

SALINA, KANSAS, THURSDAY, SEPTEMBER 27, 1883.

NUMBER 35

## Here We Are!

In Salina with the Largest and Best Selected Stock ever brought here, and they are marked to sell at Lower Prices than ever. We are speaking facts and we can prove it to all, if you get our prices.

Our Stock in Dry Goods is complete and our prices are in reach of everyone. Extra good prints for five cents per yard, better than last season for 15 and 20 cents per yard. Cashmere for 40, 50 and 75 cts per yard, better than last season for 50, 70 and \$1.00.

We have a full and complete Stock of Silks, Satins and Velvets. This line is going to be worn a great deal.

Litwisch &amp; Wolsieffer

deal. We wish the Ladies would come and select their early.

In Linen goods we have great bargains. A good Handkerchief, all linen, 5 cts. Extra fine, 10 cts. Towels for 12 1/2, all linen, 10 cts. Table linen, the largest assortment you ever saw here. You speak of flannels? Just call and see our stock, and learn prices before you purchase elsewhere. Waterproof cloths and casement, we have a larger stock than ever before. Good waterproof 54 inch wide for 50 cts per yard. We have an extra good quality of Ladies' Vests, all wool, for \$1.00. We consider this an extra good quality. Call and

Mr. Gov. St. John has gone to Ohio to stump for the Republican ticket.

C. C. WHEELER has resigned as general manager of the A. T. & S. F. Railway.

HARRY CORTER, of Ellsworth, has shipped one dozen prairie dogs for the Zoological gardens of Kensington, England.

ARCHITECT HILL has found his official pathway too "prickly" with thorns and barbed wire, and has resigned. To escape what?

A CANDIDATE on the Independent ticket of McPherson county is named Freeborn. As a matter of fact the Independent is a rule for political free-lovers.

The daughter of Hon. V. P. Wilson—Miss Ida R. was married last week to Mr. O. L. Moore, the well-known attorney of Dickinson county. Congratulations.

DR. DUNN, of the Minneapolis *Scout*, has purchased the *Index* of that city and consolidated the two papers. That's right. Minneapolis can support one paper well.

WHILE the postal notes are unquestionably a great convenience to the people, they are an intolerable nuisance to the banks, so much so that the Chicago city bank have refused to receive them on deposit.

THE historian of the Chicago *Inter Ocean* makes Nell Gwynne the mistress of Charles I. Nellie was a very small chunk of a girl during the lifetime of Charles I., but got around in good order after the Restoration to become the "intimate friend" of the First Charles' daughter son.

THE Postmaster General has ordered that 2 and 3 cent stamps and stamped envelopes of the present design will continue to be valid after the 1st of October, and may be used in combination with other combinations on letters requiring more than one rate of postage, and on parcels of the third and fourth class matter.

SEVERAL "Independent" papers speak of John A. Anderson as such a pure man. He may be pure enough to mingle in the ranks of Democrats and Independents, but he is not pure enough for the Republican party. Since John A. Anderson's first election to Congress, we have never heard a Republican bragging on his purity. At least John A. is not ready for wings.

THERE is a faint intimation that the celebrated star route case will once more be brought before the country. At least, evidence, it is said, is to be laid before the Washington city grand jury Oct. 8th, to prove that the jury in the last great trial brought in a verdict that was influenced by money consideration. It may be fairly questioned if it will not be really cheaper for the tortured tax-payers of the nation to let the matter drop. While the lawyers would have a fresh chance to let the matter drop. While the lawyers would have a fresh chance to let the matter drop.

A "cold wave" came upon us last Friday. There was a general rush for stoves and overcoats.

A company of United States troops passed through the city bound for Arizona last Friday.

THE new furnace at the High School building were tested for the first time last Saturday.

Gels & Gibbs' mill is crowded with custom work. It is paying handsomely even to start with.

Some 150 shares in a new building and loan association have been taken. It is the purpose to organize at once.

The county commissioners finally decided to not stand the expense of water pipes to the Park for the present.

We publish this week the Salina, Lincoln & Fremont railroad proposition. Scrutinize it carefully. You will find its terms all correct.

Until about two or three years ago there was not a rat in this country. Now they are sufficiently numerous to fly up any one's "aching void" for rats.

Mr. and Mrs. C. S. Wilmarth started for Western New York last Monday, to be gone three weeks. It is Charles's first visit at his home for fifteen years.

Mr. and Mrs. John J. Geis returned from their wedding trip last Saturday morning, well pleased with their experience among Colorado's great mountains.

Parties who came over the Topeka, Salina & Western route, and arrived Friday, reported over a hundred men at work and the thirty miles of grading about completed.

Four new residences will probably be erected on the east side of South Santa Fe next spring, viz: C. C. Culp, T. F. Garver, Frank Goodnow and A. M. Beebe. All of these will be first-class buildings.

Wilmarth & Gilbert are building a new carpenter shop adjoining their present place of business. It will be used for carpenter work, while the old building will be devoted exclusively to the machinery.

H. J. G. Newmiller, a former well-known Salina citizen, has been nominated by the Democrats of Dickinson county for county commissioner in the district which takes in Solomon City, Mr. Newmiller's home.

The "History of Kansas" has made its appearance, and without exception is pronounced a terrible fraud for the price (\$12), by all. It is bulky enough but facts and figures are terribly mixed. We are surprised that no pictures of the medical fraternity of Salina appear in the book; for nineteenth of the portraits therein are doctors. The publishers are doing a good thing for the people, but for older folks as well. It is not sold by dealers, but only by the publishers, who will send a 100-page descriptive catalogue of his attractive and famous cheap publications free on request. John B. Alden, publisher, 19 Vesey St., New York.

Messrs. Wilmarth & Gilbert have the contract for the contemplated changes in the upper mill of C. R. Underwood & Co. As stated last week, the capacity of the mill is to be increased by new and improved machinery. The building when completed will be 2-stories high, and 25x32 feet in dimensions. The mill will be provided with damps for pulsating the farmers' wheat.

Mr. A. C. Hall, county auditor of La Porte county, Indiana, called last Thursday. He is an old friend of Capt. O. W. Banks, and brother of Mr. R. D. Hall, of Roxbury, McPherson county. He has purchased what is known as the Alex. Henderson place of Liberty township, containing 900 acres, paying therefor the sum of \$5,000. Mr. Hall purchases this land for his sons, who will engage in stock raising.

The Atchison *Champion* says: The Topeka, Salina & Western Railroad is contracted for by Mr. Peterson, and he is bound to have the road completed to Delhi, Osborne county, by July 1st, 1884. The contractors for the grading and mason work from Council Grove have now about 100 men at work. It is the intention to have this thirty miles completed and in operation within ninety days.

The city council met last Friday evening, and transacted some unfinished business. The treasurer's report showed balances: general fund, \$2,074.54; sinking fund, \$1,300. The resignations of A. B. Dickinson and Fred Baker, as members of Hose Co. No. 2 were presented and accepted. Several members of Hose Co. No. 2 were removed for non-attendance.

Harry Barton, M. L. Mitchell and Martin Hartman confirmed as members of Hose Co. No. 2. Tenth street extension formerly declared open. An ordinance relating to the damage to the city of Salina, by the fire of the city of Salina, was passed. The mayor and councilmen were constituted a committee of the whole, to receive the invited guests at the firemen's tournament.

Councilman Bone was made a committee on arrangements. The committee of arrangements was constituted as follows: A. L. Dodge, L. O. Wright, Taylor Miller and E. W. Ober.

THE *North American Review* for October presents a most attractive table of contents. Senator N. P. Hill writes of "Gold and Silver as Standards of Value," and maintains that silver should be coined as well as gold, not for the purpose of inflating the currency, neither in the interest of the silver-mining industry, but for the broader and more equitable purpose of preserving uniformity in the value of metallic money, and of preventing such contraction of the volume of money as would produce financial disaster. In "Some Aspects of Democracy in England," A. V. Dicey makes clear to the American reader how it is that, while all One-fifth of monarchy and aristocracy persist in Britain, the democracy, or, in other words, public opinion, absolutely controls the action of the government. Under the title of "Co-operative Distribution," the Rev. Dr. R. Heber Newton gives an instructive insight into the progress of the movement and functions of co-operative societies in the United States during the past fifty years. Prof. W. Hoyt Denison, writer of the "Socialism in America," whose mode of life and whose implements appear to have been identical with those of the races that preceded it, is that, while all One-fifth of monarchy and aristocracy persist in Britain, the democracy, or, in other words, public opinion, absolutely controls the action of the government. Under the title of "Co-operative Distribution," the Rev. Dr. R. Heber Newton gives an instructive insight into the progress of the movement and functions of co-operative societies in the United States during the past fifty years. Prof. W.
